Power

Comprehensive In-line Inspection Solutions

Over 10,000km inspected

PipeDiver - SmartPig for Water Pipelines

- Flexible for large diameter pipes
 - 400mm – 3000mm
- Right technologies for right pipe materials
 - Concrete – wire breaks
 - Steel, DI, CI – wall thickness
 - Potentially AC
- Value-added capabilities
 - Video
 - Sonar
 - Laser/Video for joint gap measurement
- Make water pipelines ‘piggable’
 - Live insertion & retrieval
 - Pass in-line obstacles, such as butterfly valves, reducers, tees

Success Story - Evides

"This inspection and related validations have shown that PipeDiver is able to deliver results that allow for well-founded replacement decision making of large-diameter, cement coated, steel pipelines."

*Bart Bergmans
Project Manager,
Infrastructure Asset Management,
Evides Watercompany*
